Publications

O. Bushehrian, N. Mohammadi, "Association Rule Mining for Failure Recovery Strategy Selection in Composite Web Services", **Journal of Telecommunication, Electronic and Computer Engineering (JTEC),** Vol. 5, No. 1, 2016.

N. Mohammadi, "Evaluation of GPU Performance Compared to CPU for Implementing Algorithms with High Time Complexity",**American Journal of Software Engineering and Applications,** 2016.

N. Mohammadi, "Presentation of a Parallel Algorithm for Nearest Neighbor Search on GPU Using CUDA", **Current Trends in Technology and Sciences,** 2015.

O. Bushehrian, N. Mohammadi, "A cost-aware Model for runtime selection of recovery strategy in composite web services", **International Congress of Electrical Engineering, Computer Science and Information Technology,** Shahid beheshti University, August 22, 2015, TEHRAN- IRAN

O. Bushehrian, N. Mohammadi, "Presenting A fault-tolerant system to recover failures during Composite web Services (CWS)", **The International Conference** in **New Research of Electrical Engineering and Computer Science,** 2015.

N. Mohammadi, "An accurate model for Latent Semantic Analysis (LSA) by Singular Value Decomposition (SVD)",**International conference on science and engineering**, DUBAI- UAE, 2015

N. Mohammadi, "Web services discovery by Singular Values Decomposition (SVD)", **The 10th Symposium on Advances in Science and Technology (10thSASTech),** 2015.
